

Eurorack Compact Power Distribution Bus Board

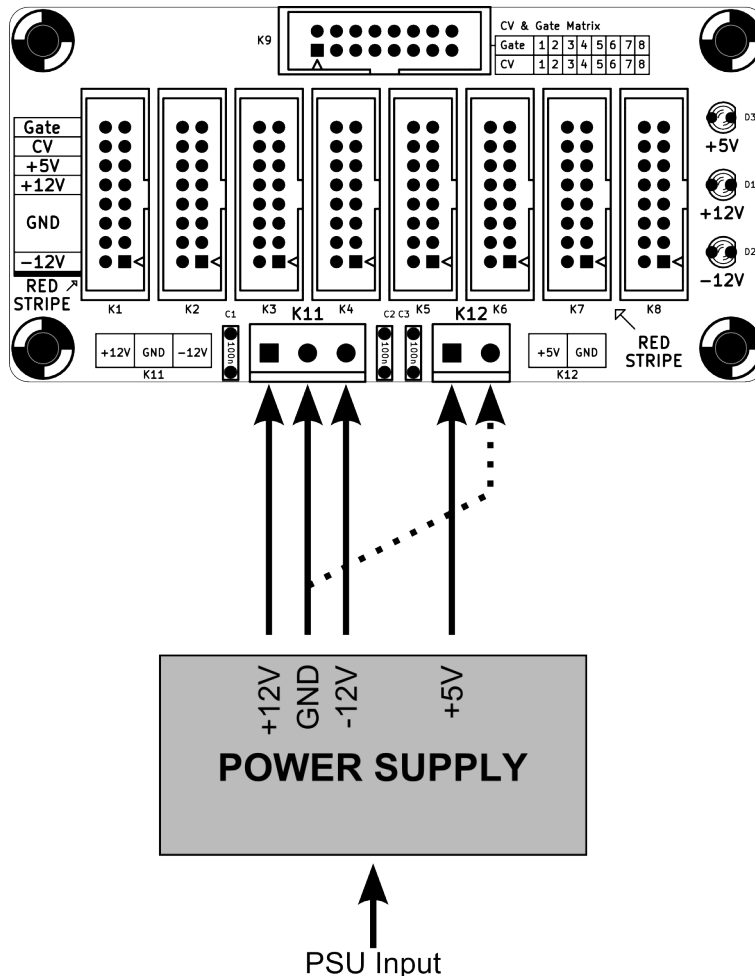

If you need to share CV and Gate signals on connectors K1 to K8, tie together K9's corresponding pins.

Best practice is to put your power distribution boards in a star configuration rather than putting them in cascade.

Designation	Qty	Reference
HE10 16-pin male connector	8	K1 to K8
Screw Terminal 2-pin	1	K12
Screw Terminal 3-pin	1	K11
LED 3mm	3	D1, D2, D3
470 Ohm 1206 SMD Resistor	1	R3
1k Ohm 1206 SMD Resistor	2	R1, R2
100 nF MKS or MKT	3	C1, C2, C3
